EDUCATION

Degree/Certificate	Institute/Board	CGPA	Year
B.Tech. CSE	Sree Venkateswara College Of Engineering - JNTUA	7.60	2020-24
Senior Secondary	BIEAP Board	8.91	2018-20
Secondary	BSEAP Board	9.17	2018

EXPERIENCE

Frontend Web Developer, Stnup Pvt Ltd

Oct. 2023 - Jan. 2024

Intern, Remote

- Worked on designing a creating reusable components and optimizing code for scalability and maintainability and implemented foundational web development skills in HTML, CSS, JavaScript, and React.js.
- Gained practical experience with debugging, version control using Git, and applying front-end design principles.
- Gained a strong understanding of web development workflows while collaborating within a dynamic team environment.

PROJECTS

• Weather Detection

Github

Machine learning project

- We have built an ML model that will take an image as input and display weather condition which are classified into 4 categories cloudy, rain, shine, sunrise. It will be useful for users to stay informed about real-time weather conditions and make prepared decisions.
- Made using: Python, Pandas, Scikit-learn, Tkinter, Matplotlib

• Food Ordering Web App

Github

Web Development

- Build a full stack web application - A food ordering app where the users can add items to the cart, place the order and admin panel enables adding and managing items, viewing user-placed orders, and updating order statuses (e.g., Food Processing, Out for Delivery, Delivered).
- Made using: React, Node.JS, Express.js, MongoDB

• Platform to buy and sell

Github

Web Development

- Designed a website where the vendors can sell their electronic products, and users can purchase them. It has three different interfaces, i.e., Add Product, Product List, Orders.
- Made using: HTML, CSS, Bootstrap, Javascript, React

TECHNICAL SKILLS

- **Programming:** Python, JavaScript, C(familiar)
- **Development:** HTML, CSS, Bootstrap, React, Node.js, RESTful APIs, Django
- **Databases:** MySQL, MongoDB(familiar)
- **Tools:** Git, Visual Studio
- **CS Subjects:** OOPs concepts, Familiar with Data structures and Algorithms, Operating system
- **Others:** Problem-solving, Communication, Adaptability, Exploring new technologies

CERTIFICATIONS

- **Certified in JavaScript**, Stnup Private Limited Jan 2024
- **Certified in React JS**, Pro Stack Academy Dec 2024
- **Python Certified**, HackerRank Mar 2024

POSITIONS OF RESPONSIBILITY

- **Volunteered at a Cultural Event**, Euphoria Elements, SVCN
